

Jessica Lau

(646) 691-5380 | jessicalau0228@gmail.com | Brooklyn, NY | [linkedin.com/in/jessica-lau/](https://www.linkedin.com/in/jessica-lau/)

EDUCATION

Baruch College, City University of New York (CUNY)

Bachelor of Arts in Mathematics, Minor in Computer Science | GPA: 3.90/4.00 | Dean's List

New York, NY

Expected May 2025

Relevant Coursework: Data Structures and Algorithms, Python Programming, Machine Learning, Graph Theory, Financial Mathematics, Statistical Inference

Pennsylvania State University, Abington

Bachelor of Science in Mathematical Sciences | GPA: 3.94/4.00 | Dean's List

Abington, PA

Aug 2020 - May 2022

Honor Student, Honors Scholarship, Bunton Waller Scholarship, Abby Sutherland Trustee Scholarship, Commonwealth Campus Discover Penn State Award

SKILLS

Programming/Technologies: Python, SQL, Pandas, NumPy, Sklearn, Matplotlib, C++, Git/GitHub, BigQuery, Visual Studio Code, Anaconda, Spyder, Google Workspace, Google Colab, Microsoft Suite, Excel, Tableau, HuggingFace, Streamlit, Adobe Cloud, Canva

Spoken Languages: Cantonese (native), Mandarin (proficient), Japanese (elementary)

RELEVANT EXPERIENCE

Morgan Stanley | Wealth Management Analyst Intern

New York, NY | Aug 2024 – Dec 2024

- Communicated with stakeholders, financial advisors, and wealth management analysts to gather requirements, manage end-to-end delivery, and ensure solutions fit for on-demand metrics of advisor success to drive informed assignments and decisions on client assets
- Optimized and automated analysis of reinvestment reporting using Python, Pandas, NumPy, and ast libraries, to manipulate and summarize datasets of over 20,000 client accounts, which expedited the process from 3 days to 1 hour, reducing human-error, and making analysis process more accessible

CUNY Tech Prep | Fellow, Data Science

New York, NY | Jul 2024 – Present

- Selected for a competitive data science fellowship to create technical projects using tools such as Python 3, Jupyter Notebooks, Pandas, NumPy, Scikit-learn, and SQL
- Participate in weekly courses and learn industry best practices for exploratory data analysis (EDA), feature engineering, data collection and processing, statistical modeling, data visualization, machine learning techniques, data science processes, and big data with structured and unstructured data

NASA, MCA | Project Manager

Remote | Jan 2024 - May 2024

- Led an interdisciplinary team of 14 students to develop the first 2 phases of a Mars rover mission to investigate water and ice on Mars to determine habitability by presenting a high-level overview of our PDR to a NASA review panel
- Conducted extensive research using JMARS (Java Mission-planning and Analysis for Remote Sensing) to explore the Mars surface to find the optimal mission landing spot based on water-ice and macromolecule presence
- Oversaw the operational and administrative functions of the team: team management, task distribution, communication, meetings, scheduling, and liaison between the team and NASA faculty

SUPPORTING EXPERIENCE

STEAM CHAMPS | Head Coach

Brooklyn, NY | Jun 2023 - Aug 2023

- Created and taught coding, robotics, front-end web development, drones, art & music history, touch typing, entrepreneurship, and 3D printing curriculum to children ages 5-12 in one-on-one settings and class sizes up to 20
- Oversaw and managed a team of 15 counselors and operations during the summer camp by creating schedules and task distribution

TSE Medical PLLC | Medical Assistant and Receptionist

Brooklyn, NY | Sep 2022 - Dec 2022

- Assisted 80 patients weekly, doctors, nurses, and medical staff with examinations, lab specimens, and patient records.
- Managed patient data and records securely with DocAssist, MedicsPremier and Excel databases for accurate data entry to increase efficiency, allowing the clinic to take in more patients a day.

NASA, NPWEE | Scheduling and Outreach Officer

Remote | Jan 2022 - May 2022

- Worked with a team of 12 students to conduct and present a proposal to a NASA review panel for adapting bio characteristics to improve spacecraft structures by overseeing the scheduling and budget of \$10,000

PROJECTS

US Stock Prediction [\[github\]](#)

Dec 2024

- Recreated and analyzed the results from a random forest model for analyzing and forecasting the US Stock Market using the yfinance API, Pandas, NumPy, Matplotlib, scikit-learn, and seaborn libraries to visualize financial indicators of stocks and model prediction accuracy of over 26,000 data points

ObsidianAI, [\[devpost\]](#)

Aug 2024

- Worked with a team of 4 students at a hackathon to create an AI-powered chatbot with a tech stack of node.js, express.js, vanilla javascript, and css to help CUNY students find resources they need by collecting and cleaning data

LEADERSHIP

United Chinese Association of Brooklyn, Lion Dance Team Leader

NYCHA-CUNY Scholarship - Awarded to NYCHA or Section 8 residents, enrolled in CUNY full time, > 3.0 GPA

QuestBridge College Prep Scholar - Attended exclusive QuestBridge National College Admissions Conference
